PRESENTATIONS BY INVITATION, ABSTRACTS & POSTERS

1. *Antenatal tests of fetal well being*. Homerton Hospital Postgraduate meeting June 1996.
2. *Prediction and prevention of Pre-eclampsia*. Homerton Hospital Postgraduate seminar Dec 1996.
3. *Uterine artery Doppler in the prediction and aspirin for the prevention of pre-eclampsia*. Newham Hospital Postgraduate meeting January 1997.

4. *The use of uterine artery colour Doppler as a screening test for pre-eclampsia - Does it pass with flying colours?* St. Bartholomew's Hospital Grand Round March 1997.
5. *How does ultrasound change antenatal care?* Whipp's Cross Hospital Postgraduate meeting. November 1997
6. *Screening for uteroplacental complications and high-risk pregnancies.* Advanced course in Ultrasound. Portsmouth University, November 1997.
7. *Should women with unexplained abnormal serum biochemistry be offered uterine artery Doppler studies?* Poster at the British Congress of Obstetrics and Gynaecology, Harrogate, June 1998.
8. *Pregnancy complications cause by utero-placental insufficiency.* 2° Workshop Mediterraneo, Naples, 23-24 October 1998.
9. *Second trimester inhibin-A is an early marker of pre-eclampsia and related uteroplacental complications.* Oral presentation, Registrar's Prize meeting, Royal Society of Medicine 30th March 1998.
10. *Prediction of Pre-eclampsia using inhibin-A and uterine artery Dopplers.* Oral presentation, Specialist Registrar's conference, RCOG, Bristol May '99.
11. *Evaluation of uterine artery flow velocity waveforms for the prediction of pre-eclampsia in a population of mixed parity.* Oral presentation, Victor Bonney Society Meeting May 1999.
12. *Comprehensive analysis of uterine artery flow velocity waveforms at 20 weeks gestation for the prediction of pre-eclampsia.* Oral presentation, 9th World Congress in Obstetrics and Gynaecology Argentina, November 1999.
13. *The significance of placental sonolucencies at 20 weeks gestation and subsequent adverse pregnancy outcome.* Oral presentation, 9th World Congress in Obstetrics and Gynaecology Argentina, November 1999.
14. *Assessment of Blood volume flow in the uterine artery; the influence of arterial distensibility and waveform abnormality.* Oral presentation, 9th World Congress in Obstetrics and Gynaecology Argentina, November 1999.
15. *The prediction of adverse perinatal outcome in multiparous women using uterine artery Doppler.* Oral presentation, British Medical Ultrasound Society 31st Annual Scientific Meeting, December 1999.
16. *Improved early prediction of preterm pre-eclampsia by combining second trimester maternal serum alpha-fetoprotein and uterine artery Doppler.* Oral presentation, British Maternal and Fetal Medicine Society. Fifth Annual Conference. March 2000.
17. *Correlation between second trimester maternal serum inhibin-A and human chorionic gonadotrophin for the prediction of pre-eclampsia.* Poster presentation, British Maternal and Fetal Medicine Society. Fifth Annual Conference. March 2000.

18. *The value of sonohysterography in one-stop menstrual disorder clinic: one year audit.* Oral presentation, Fifth Maltese Medical School Conference December 2003.
19. *Section Editor Current Opinion in Obstetrics and Gynaecology.* Vol 15 No6 December 2003.
20. *Section Editor Current Opinion in Obstetrics and Gynaecology.* Vol 16 No6 December 2004
